Ilex opaca

HOLLIES • Ilex

Of the Holly family only one, the American Holly (*Ilex opaca*) is generally known. This is the familiar Christmas Holly, which despite more or less general belief that it is not hardy, grows excellently in this section. In the Winter of 1933, 1934, when Boxwood, California Privet and other plants died to the ground, American Holly merely lost a few leaves and by May 15th was again in perfect condition. Our stock of this beautiful shrub or tree is one of the largest in the North and we offer only plants labeled for berrying. Male and female plants should be planted near each other. We suggest a group of at least three plants.

ILEX opaca. American Holly. The well known Christmas Holly with red berries. Selected plants this Fall only.		
	Each	10
2 to 3 ft.	\$2.75	\$25.00
3 to 4 ft.	4.25	40.00
4 to 5 ft.	7.50	
5 to 6 ft.	10.00	

Ilex buliata

ILEX bullata. Boxleaf Holly. Resembles dwarf Boxwood in habit and foliage. Usually grows much broader than high, with very glossy foliage. Grows about 4 ft. high and is ideally suited for edging or in larger specimens for entrance planting. This Holly is extremely hardy.

	Each	10
8 to 10 in.	\$0.45	\$4.00
18 to 24 in.	3.50	30.00
24 to 30 in.	5.00	
30 to 36 in.	7.50	

ILEX crenata. A rapid growing, dense evergreen bush with deep green, Boxwoodlike foliage. A permanent plant of real character.

	Each	10
18 to 24 in.	\$2.50	
2 to 3 ft.	3.50	
3 to 4 ft.	5.00	
4 to 5 ft.	7.50	

ILEX glabra. Inkberry. A bushy, upright growing, very hardy shrub with dark, oval foliage, small flowers, and an abundance of glossy black fruit in the Fall. Useful for shady and moist locations.

	Each	10
18 to 24 in.	\$2.00	
2 to 2½ ft.	3.00	
2½ to 3 ft.	4.50	

KALMIA

Latifolia. Mountain-laurel. Thrives in any good soil not impregnated with lime and grows well. Nursery grown plants.

	Each	10
1 to 2 ft.	\$1.50	
2 to 2½ ft.	2.50	
2½ to 3 ft.	3.50	

Large specimens, 3 to 6 ft., with equal amount of spread. Collected plants from 75c. to 3.00

LEUCOTHOE

Catesbaei. Drooping Leucothoe. Most beautiful dwarf shrub for either shade or sun. White, bell-shaped flowers cover the drooping stems in early Spring. Prices are low for bushy plants.

	Each	10

Tree Wisteria

TREE WISTERIA

No more lovely sight can be imagined than a Tree Wisteria in bloom. The purplish blue flowers completely cover the tree during May, transforming it into a sheer beauty. In formal gardens, Tree Wisterias are indispensable. On the lawn they develop into beautiful specimens and live for generations, increasing in beauty and dignity each successive season. The plants we offer are grown on stems about 4 feet high and the crowns are about 2½-3 feet in diameter. Every plant has bloomed.

TSUGA • Hemlock

We still have a magnificent stock of Hemlocks, notwithstanding the fact that it is our largest selling evergreen. In addition to sizes listed, we have large specimens from 20 to 35 feet in height which are the admiration of all who see them.

Hemlocks can be used in many different ways: As lawn specimens they attain great size and beauty; by shearing they may be used in foundation planting and kept from overgrowing for years and years; for border or screen they form a most naturalistic background. Hemlocks thrive in shade or full sun and are practically immune to insects and diseases.

We have added to our already extensive stock a block consisting of several thousand Hemlock. They have been well cared for and their fullness of feathery foliage and sturdiness show this care. Picked at random, almost every tree would be of specimen quality.

TSUGA canadensis. A handsome ornamental tree growing 70 to 100 ft. high. Dark green foliage. Hardy as far north as Canada.	Each	10
2 to 3 ft.	\$2.00	\$17.50
3 to 4 ft.	3.00	27.50
4 to 5 ft.	5.00	45.00

8 to 9 ft.	15.00	
9 to 10 ft.	18.00	
Large specimens, 10 to 35 ft.	18.00 up	

Special prices on large quantities for naturalistic planting or hedges. Ask for quotations, stating quantity needed.

Tsuga sargentii

TSUGA canadensis sargentii. Weeping Hemlock. Makes a tremendous mound of wavy outline many times broader than high, always well clothed and neat. Like all good things, it develops slowly, but becomes a real possession in your "personal" effects. Magnificent.	Each	
1½ to 2 ft.	\$5.00	
2 to 2½ ft.	7.50	
3 to 4 ft.	12.00	
4 to 4½ ft.	15.00	

Blueberries

Cultivated Blueberries

A grand combination of luscious fruit on the most beautiful ornamental shrub.

Cultivated Blueberries are the result of 25 years of experimenting. No spraying or difficult care necessary. Gigantic berries of exquisite flavor. Plants hardy at 30 degrees below zero.

Bearing age plants, 18 in. high—3 for \$5.00
Three different varieties are supplied to afford cross pollination

Malus floribunda

Cornus florida

FLOWERING TREES

MALUS • Flowering Crab

MALUS floribunda. A single, rose pink variety bearing an abundance of fruit even when young.	Each	
3 to 4 ft.	\$1.50	
4 to 5 ft.	2.50	
5 to 6 ft.	3.50	
6 to 8 ft.	5.00	

MALUS hopa. Erect, symmetrical, leaves tinged purple. Flowers large red, single; dark red fruit.	Each	
4 to 5 ft.	\$1.75	
5 to 6 ft.	4.00	
6 to 7 ft.	5.00	

MALUS ioensis bechteli. Double Pink Crab. A very fine variety with double pink flowers resembling a miniature Rose. Makes a shapely compact tree.	Each	
3 to 4 ft.	\$2.00	
4 to 5 ft.	3.00	

MALUS scheideckeri. Similar to M. floribunda, with double pink flowers and yellow fruit. Flowers last well.	Each

3 to 4 ft.	\$1.75	
4 to 5 ft.	2.50	
5 to 6 ft.	4.00	

SHADE TREES

ACER • Maple

The Maples are universally popular. They are regular in outline, vigorous growers, beautiful in foliage, and adapt themselves to almost any soil. The Norway Maple is especially desirable for street planting and thrives well near the sea.

ACER platanoides. Norway Maple. Foremost of the Maples because of its regular outline, wide-spreading branches, and deep green foliage which is retained after the first heavy frosts.	Each	
2 to 2½ in. caliper.	\$5.00	
2½ to 3 in. caliper.	7.50	
3 to 3½ in. caliper.	9.00	
3½ to 4 in. caliper.	12.00

3 to 3½ in. caliper.	10.00	
Large specimens, 6 to 12 in. caliper.		

ACER saccharum. Sugar Maple. A beautiful tree of upright form. Attains a greater height than the Norway Maple and colors yellow and red in Fall.	Each	
2 to 2½ in. caliper, 14 to 16 ft.	\$6.00	
2½ to 3 in. caliper.	7.50	
3 to 3½ in. caliper.	12.00	
3½ to 4 in. caliper.	\$15.00 to 18.00	

QUERCUS • Oak

The Oaks, especially when they attain size, are the most picturesque of all trees, symbolizing strength and durability. Their reputation as slow growers is not warranted, for, when once established, they will make a yearly growth equal to that of almost any other species

Palustris. Pin Oak. A superb and distinct tree. The Pin Oak's graceful, drooping branches support a mass of deeply lobed, sharply pointed leaves, changing to deep red in Autumn. Jack Frost has never shown greater skill than in the coloring he produces in the Pin and Scarlet Oaks.	Each	
2 to 2½ in. caliper.	\$ 7.00	
2½ to 3 in. caliper.	10.00	
3 to 3½ in. caliper.	15.00	
3½ to 4 in. caliper.	22.50	
Large specimens.	\$125.00 to 150.00	

There is probably no group of trees which provide greater satisfaction to the home owner than flowering trees. They are covered in early Spring, with colorful blossoms. This is followed by green foliage which provides beautiful background for other later flowering plants. Besides the complete satisfaction provided by this group of trees, they are an investment in ever-increasing beauty.

CORNUS • Dogwood

CORNUS florida. White Dogwood. A native flowering tree attaining about 20 ft. in height at maturity and producing a wealth of single white flowers before the leaves appear. The foliage is deep green, turning a brilliant red in the Autumn.	Each	
3 to 4 ft.	\$1.75	
4 to 5 ft.	2.75	
5 to 6 ft.	4.75	
6 to 7 ft.	6.00	
7 to 8 ft.	7.50	
8 to 10 ft.	9.00	
Large specimens	Prices on request	

CORNUS florida rubra. Pink or Red Dogwood. Similar to our native White Dogwood in habit and form but with masses of pink flowers.	Each	
2 to 3 ft.	\$1.75	
3 to 4 ft.	3.50	
4 to 5 ft.	5.00	
5 to 6 ft.	7.50

SPECIAL OFFER

Three varieties of Flowering Crabs,
5 to 6 ft. size for \$7.50

Your selection of varieties except Bechteli. Heavy, robust stock that will surely flower next Spring.

Shade trees are one of the most important items in beautifying your home grounds. Consider any home that has been effectively landscaped. You will be amazed at the number of shade trees planted to complete the landscape picture. All of our trees have been repeatedly transplanted and are exceptionally well-developed. We are offering, at this time, our complete stock at substantial reductions.

CERCIDIPHYLLUM

Japonicum. Katsura-tree. A slender, young tree branching from the ground, developing into a magnificent spreading tree. Heart-shaped foliage, purple tinged.	Each	
10 to 12 ft.	\$7.50	
12 to 14 ft.	10.00	
14 to 16 ft.	12.50	

TILIA • Linden

Extensively planted as an ornamental tree. Nearly all the species are of rapid growth and not very particular as to soil. They are handsome, upright, and regular in shape. The pleasant odor of the flowers is an additional recommendation.

TILIA americana. American Linden. Especially noted for its great vigor, large, heart-shaped leaves, and very fragrant flowers in June. No flowers produce so delicious a honey as those of the American Linden.	Each	
2 to 2½ in. caliper.	\$5.00	
2½ to 3 in. caliper	8.00	
Large specimens.		

TILIA vulgaris. European Linden. Generally conceded the best form for street planting as the dark green leaves remain good until late Autumn. The compact, low-branched head is particularly fitted to lawn purposes where the branches make a natural canopy. Fragrant flowers in June.	Each

1938 BARGAIN IN BIG TREES AND SHRUBS

Large trees that save a generation. Fall is the time to plant big trees, and now is the time to effect a large saving in your planting cost. Our entire stock of large sizes, both shade and evergreen trees, also flowering shrubs, are reduced for the Fall season. Select now for planting at the best possible time.

FRUIT TREES FOR FALL PLANTING

Transplanted stock. The trees herein offered have been one or more times transplanted, therefore have developed fibrous roots ready to go ahead immediately in your garden. The trees are three years old and have regularly been sprayed, cultivated, and pruned. We offer them at exactly the same price as previously for two-year-old stock.

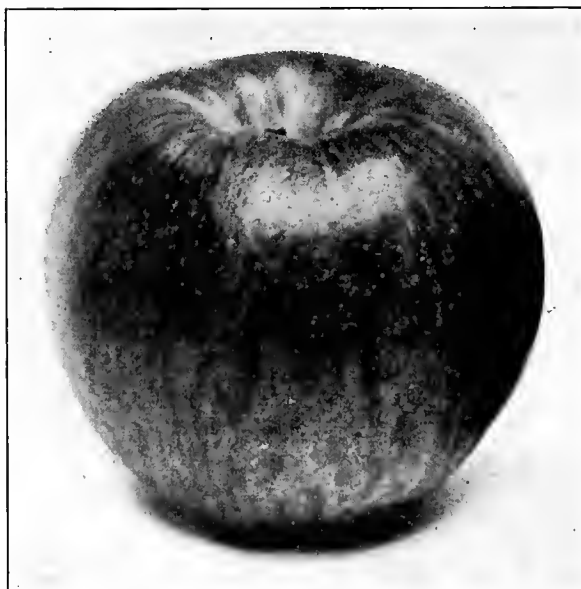

\$1.00 each, \$9.00 per 10
